

SeeSnake® microDRAIN™ APX™ Inspection Reel with TruSense™ Technology

RIDGID

NEW!

**TruSense™
Enabled**

SeeSnake® microDRAIN™ APX™ with TruSense™ is the ideal pipe inspection camera for small pipes and conduits with tight turns. The advanced, high-flexibility push cable and small-radius camera design allows inspection through small-diameter pipes, p-traps, and small-radius bends that other inspection systems often cannot inspect.

- ▶ The APX camera head delivers Auto-Image Flip*, digitally rotating the in-pipe image every 180 degrees.
- ▶ TruSense™ Technology* offers High Dynamic Range (HDR) imaging with the clearest in-pipe image, a TiltSense™ Inclinometer displaying the camera's degree of tilt on the monitor, and Digital Zoom & Pan to focus on points of interest in the on-screen image.
- ▶ A specialty high-flex push cable and small diameter camera head are ideal for multiple bends, p-trap and toilet traps.
- ▶ Built-in kickstand offers in-field versatility with multiple configurations for optimal operation

* MicroDRAIN™ APX™ must be used with TruSense enabled monitor to receive APX™ TruSense™ features: SeeSnake CS65XR, CS12x, CS6x VERSA, and the CSx VIA. APX TruSense features will not show on CA-350(x).

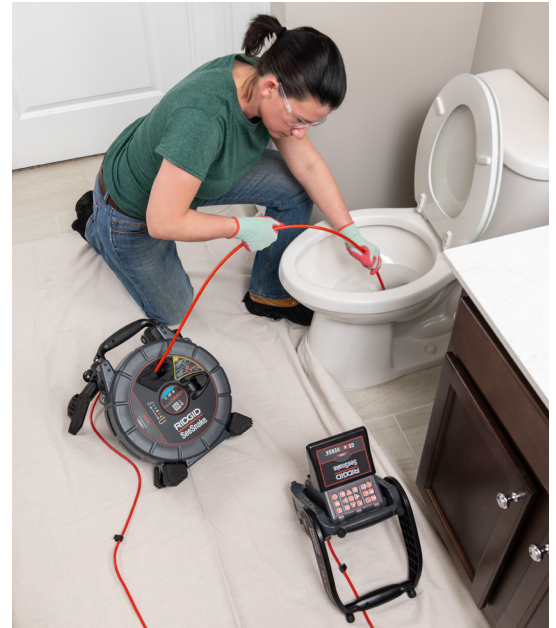

SeeSnake® microDRAIN™ APX™ Inspection Reel with TruSense™ Technology

RIDGID

SPECIFICATIONS:

Model		SeeSnake® microDRAIN™ APX™
Camera	Diameter	22 mm
